

## Annual Congress of SPCRC in Olten on November 8, 2019

Our Annual Congress is close, and we look forward to welcoming you in Olten on Friday, November 8, 2019. We are pleased that the Congress program with excellent speakers and attractive topics from many fields of clinical research has resulted in a high number of registrations.

You will experience a stimulating and highly educational day at the congress. SwAPP acknowledges 5 credit points for participation in the congress.

In addition to the lectures, there will be precious time for discussions and networking. The friendly and informal attitude of our congress will give you the great opportunity to meet other research professionals during coffee breaks, lunch and the reception at the end of the meeting!

The board members of the SPCRC have taken a number of steps in order to better establish our profession in Switzerland. Members of the SPCRC will get information about the current state of this work during the General Assembly that will take place at 09:00 in the Congress hotel. The agenda of the General Assembly has been sent to all members of SPCRC.

Thank you if you have registered for our Annual Congress already. If you haven't found the time so far, we cordially invite you to register online by using our homepage [www.spcrc.ch](http://www.spcrc.ch) and its congress link. On the homepage, you can also find information about membership in SPCRC and a link for registration.

We look forward to meeting you in Olten!

The board members of SPCRC
