

Newsletter 2020/1 / look back

Dear colleagues

By participating in the Annual Congress 2019, you have made the meeting in Olten a great success. The attendance was very high, and the lectures from several fields of clinical research were very interesting. Many of you will also fondly remember lively discussions with the speakers and colleagues, and cordial chats with old and new friends during breaks and the concluding apero in the evening. We are happy and grateful for positive feedbacks from many participants.

If you would like to support the interests of our profession and for being a member of our association you have the possibility to register online. www.spcrc.ch

The support of every single member is important, and we hope that we can count on you in 2020!

In the New Year, we will strive for further evolving and fostering our occupational group. One important goal and a highlight of our activities is the successful realization of our 4th National Annual Congress in St. Gallen on November 13, 2020. Please mark this date on your calendar! We are very confident that ongoing work will result in another stimulating and highly educational congress!

Präsidentin, Esther Seeberger

**The board members wish you all
a successful, happy and healthy 2020!**
