

Swiss Professionals of
Clinical Research Coordination

With deep regret we have to announce the cancellation of our Annual Congress, planned for November 13, 2020, in St. Gallen. The exponentially increasing number of Covid-19 infections are the reason for the cancellation. Many hospitals have restricted participation in congresses and meetings already, and we expect further restrictions by cantonal and federal authorities in the coming days.

Postponed is not abandoned! The Annual Congress will take place in fall 2021.

With kind regards and best wishes,

The Board of SPCRC
